Dear Watershed Advisory Council Members and Interested Parties,

We are pleased to announce an upcoming meeting of the Santa Monica Bay Restoration Commission's (SMBRC's) Watershed Advisory Council (WAC). The primary purpose of this meeting is to introduce and discuss the recently-initiated year-long Santa Monica Bay Restoration Plan (BRP) revision process. The revision, which is targeted for completion in fall 2018 will incorporate new information and data, address new priority issues such as climate change, and involve significant changes to the goals and objectives of the existing BRP. The revision process will be conducted collaboratively with the Bay Foundation (TBF), SMBRC's partner under the Santa Monica Bay National Estuary Program (SMBNEP) through a public and iterative process with active participation from a wide range of stakeholders. The upcoming meeting will be the first of a series of WAC meetings scheduled to engage members throughout the revision process.

More information, including an agenda and related materials will be distributed prior to the meeting.
